

2006 Hans Geissberger Award Helen Busby RT(R)(CT)(CV)

Helen Busby received her training in radiologic technologic at Norfolk General Hospital School of Radiologic Technology in 1974. Since then, she has also taken the advanced registry in cardiovascular and computed tomography. Helen has worked in special procedures and computed tomography and currently is the team coordinator for Computed Tomography, Interventional Radiography, Radiology Nursing, and Ultrasound at Sentara Norfolk General Hospital.

Throughout her busy career, Helen has served as an officer many times in the Tidewater District Society of Radiologic Technologists, and is currently their President-Elect. She has chaired numerous meetings for the Virginia Society of Radiologic Technologists as well as serving on Tidewater's Beth Smith Memorial Seminar Committee.

During her career, Helen has received many awards, including the Jimmy Ailsworth Award for Outstanding Service to the Tidewater District, Manager of the Year, and Professional Excellence in Professionalism. Helen continues to set an example to all technologists with her dedication and commitment to the field of radiologic technology.

Congratulations to Helen Busby, 2006 recipient of the Hans Geissberger Award!
